SAN JOSÉ, Graham county, is going to have a hemerophyte paper, English and Spanish, to be called La Verdad.

The president has appointed W. H. Whiteman of Albuquerque as associate justice to succeed Judge Reeves, and John R. McRae of Las Cruces to succeed Judge Henderson.

PRESIDENT HARRISON has appointed Lewis Wolsey of Tucson governor of Arizona. This appointment pleases just seventeen republicans in that territory. The rest are mad, disgusted and disappointed as each one of them expected to receive the appointment himself.

There are twenty-six state legislatures grinding away this winter at a cost of many thousands of dollars a day, and it may be doubted if the actual benefits derived in the next two years will be 20 per cent of the cost.—St. John's Herald. It is now generally conceded that the benefits of a legislature are from the laws it does not pass, rather than from the laws it does pass.

An exchange says that on the morning of April 4th, 1889, at 9 o'clock, it is arranged that the church bells all over the country shall ring to celebrate the event of 100 years ago when the church bells throughout the thirteen states rung out to call the people together to pray for the success and prosperity of the country under General Washington that day inaugurated president of the United States.

R. E. TWITCHELL, the gentleman appointed solicitor general of New Mexico by the late council, has come out with a lengthy opinion saying that the portion of the meat inspection law prohibiting the importation of uninspected meat into the territory is antagonistic to the United States constitution, in that it interferes with interstate commerce. Is not Mr. Twitchell a little fresh? Is it not generally considered the business of the courts, not of the lawyers, to pass on the constitutionality of laws? Has Mr. Twitchell ever fully digested a case brought before the United States supreme court from Michigan, to correct a state law, where that court decided that a state law could interfere with interstate commerce in the exercise of proper police regulation? Would Mr. Twitchell claim that the inspection of food intended for consumption by human beings and the prohibition of the use of food not properly inspected was an improper police regulation?

MR. BURTON PARKER, of Monroe, Michigan, is a candidate for the office of associate justice of the supreme court of New Mexico. He is said to have strong backing from the Michigan republicans.—New Mexican. Bert Parker's fame and prominence in Michigan is due to the fact that once he bolted the caucus nominee for senator and helped elect another man. If we have read the recent history of New Mexico aright there are now enough bolters and kickers in the territory, and the president will do New Mexican republicans a favor by allowing Mr. Parker to remain stuck in the mud on the banks of the classic Monroe, a position he has occupied for six years, and from where the Michigan republicans would pull him only for the purpose of plunging him into the soup. However, in this great era of economy and reform Mr. Parker would be a great aid. He could serve as judge, court crier and bailiff, all for the salary of one man. He can stand on the front steps of the court house and summon a jury or witness and every man in the judicial district would hear the summons.

THE Mesilla Valley Democrat re-prints from the columns of the LIBERAL the article published a couple of weeks ago in regard to the controversy between the Enterprise and Sentinel over the propriety of calling Adas Homer a murderer, and says:

"We are inclined to believe that under the new libel law the LIZZARD is guilty of libel in republishing the extracts from the Enterprise and Sentinel in the above article and that we have been guilty of libel in republishing the article in order to give it this information. And it is no 'country bastile' you (we) will go to, but to the territorial pen for two years. As we are all to go together let us prepare for it. If the Enterprise will lay in a stock of whisky, the Sentinel arrange for the cards, and the LIBERAL supply the cigars, we will see after supplying the chips, matches and other minor articles, and will have our devil (who is a past graduate in the art of mixing drinks) committed along with us to wait on the party."

It may seem a little hard to have all of these men committed to the pen, but it will be a great advantage, both mentally and morally, to the Silver City editors to spend two years in such distinguished society.

JOE DIXON has returned from Alabama and taken an editorial position on the Opie. It may sound paradoxical but it is a fact that Joe is a mighty good writer and a mighty poor pugilist. The Opie composers have resolved to strike unless Joe marries a type writer.

THE NEW YORK SUN.

FOR

1889

And for the Democracy.

THE SUN believes that the campaign for the election of a Democratic Congress in 1880 and a Democratic President in 1884 should begin on or about the fourth of next March. THE SUN will be on hand at the beginning and until the end of the most interesting and important political conflict since the war, doing its honest utmost, as ever, to secure the triumph of the Democratic party and the permanent supremacy of the principles held by Jefferson, Jackson and Tilden.

The great fact of the year is the return to absolute power of the common enemy of all good Democrats—the political organization for whose overthrow THE SUN fought at the front for fifteen years, the memorable years of Grant and the Fraud Hayes, and Garfield and Arthur.

It is the same old enemy that Democrats now confront, and he will be entrenched in the same strong position. It has been entrenched by brave and hopeful fighting. Do you not believe in THE SUN that the thing can be done again? Wait and see!

The hope of the Democracy is in the loyal efforts of a united press, cherishing no memory of past failures, no sectionalism, forgetting everything but the spirit of experience, and that victory is a duty.

Probably you know THE SUN already as a newspaper which getsts all the news and prints it in an incomparably interesting shape, which charms the face and heart, telling the truth about men and events with absolute frankness, making the completest and most entertaining journal published anywhere on earth. It is the only paper in the world which is read by all classes of people, and is a great favorite with subscribers and purchasers at two cents a copy—on Sundays four cents. If you do not know THE SUN, send for it and learn what a wonderful thing it is to be in the sunshine.
